

S.M.A.R.T. Criteria

To select an idea for social action that is feasible and realistic to complete within the time-frame, use the S.M.A.R.T. criteria:

Specific - Ensure that your idea is clear and has a narrow focus.

Measurable - Can you measure your idea? Stay on track by asking: how will I know when it's done?

Achievable - Aim high, but make sure your project idea is something that you can actually do.

Relevant - Is your idea linked to what you are trying to achieve? Will your idea help you to achieve your desired result?

Time-bound - A deadline will help establish a sense of urgency and help you keep your project focused and on-track.

The criteria above was inspired by this article found on the Creative Educator website:
