## History of Mobile Phones

### Instructions

See if you can match all of the mobile phone pictures and features to the right year they were made. Cut out each picture and feature box and paste them into the timeline.

Motorola  
MicroTAC 9800X

Motorola  
Razor

Sanyo  
SCP 5300

Nokia 8810

The phone has a clamshell design with camera and two screens.

The first Smartphone with touch screen and email. I am now 20 years old.

Motorola  
DynaTAC 8000X

Apple iPhone

IBM Simon

First camera phone with colour screen and compact flip open design.

The slider style phone was the first phone to have an internal antenna.

The phone has a touch screen and full colour display. It can access third party apps and the internet.

First phone to fit into your pocket, the mouth piece folded over the keypad in black plastic.

Weighing over 1kg the phone had a white case and large bulky handset.
