

DIFFERENT TYPES OF HOMELESSNESS – MATCHING GAME

- Cut out and mix up the boxes below, and match the descriptions with the category of homelessness that they fit into.
- In the spare boxes students could also create their own description and match it with the appropriate category.

Primary homelessness	People who don't have the security provided by a lease		People living in hostels
	Using cars or trains as temporary shelter		People staying in boarding houses for 12 weeks or less
Secondary homelessness	People who frequently move from one type of shelter to another	People who are sleeping in parks	People staying with other households
	People who are squatting in derelict buildings	People without a 'roof over their head'	People who live in boarding houses on a medium to long term basis (more than 13 weeks)
Tertiary homelessness	People who are living on the streets	People who live in accommodation that does not have self-contained facilities, such as a kitchen or bathroom	People who don't have the security provided by a lease
