

BOX PLOT PRACTICE SHEET

In this lesson you will be collecting data about the biodiversity in your schoolyard. Using the data you and your class collect, you will be creating a box plot.

In order to ensure you understand what is required to create a box plot, use the following data collected by another class to practice creating a box plot and clearly state the 5 figure summary:

4.4, 3.9, 4.2, 4.3, 4.4, 4.8, 4.3, 4.4, 5.0, 4.4, 4.5, 4.5, 4.1, 4.7, 4.6, 4.9, 5.1
