### **Global Warming “Very Likely” Caused by Humans, World Climate Experts Say**

John Roach, February 2, 2007, National Geographic News (<http://news.nationalgeographic.com/news/2007/02/070202-global-warming.html>)

Global warming is here, it’s human-caused, and it will continue for centuries even if greenhouse-gas emissions are stabilised, an international panel of climate experts said in a report issued today.

## ARTICLE 2.

### **Climate not main challenge: PM**

April 23, 2007, Sydney Morning Herald (<http://www.smh.com.au/news/national/climate-not-main-challenge-pm/2007/04/23/1177180540877.html>)

Prime Minister John Howard has rejected Labor leader Kevin Rudd’s claim that climate change is the overwhelming moral challenge facing Australians.

## ARTICLE 3.

### **Climate change a huge security problem: Keelty**

Simon Lauder, September 25, 2007, ABC News (<http://www.abc.net.au/news/2007-09-25/climate-change-a-huge-security-problem-keelty/680208>)

As if more evidence is needed that climate change is more than an environmental issue, Australian Federal Police (AFP) Commissioner Mick Keelty has labelled it the biggest security issue of the century.

## ARTICLE 4.

### **Scientists: Humans ‘very likely’ cause global warming**

Peggy Mihelich and David E. Williams, April 29, 2007, CNN International ([http://edition.cnn.com/2007/TECH/science/02/02/climate.change.report/index.html?\\_s=PM:TECH](http://edition.cnn.com/2007/TECH/science/02/02/climate.change.report/index.html?_s=PM:TECH))

Global warming is here and humans are “very likely” the blame, an international group of scientists meeting in Paris, France, announced Friday.
