

# MARINE FOOD WEB

Student names:

INSTRUCTIONS - On the image to the left you will find a range of organisms that can be found in marine ecosystems. Your task is to add in the arrows to show the direction of energy flow within this food web. In addition, you need to add labels that show which of the following applies to each of the organisms on the food web (you may use more than one label for individual organisms):

- Producer
- Consumer
- Decomposer
- Carnivore
- Herbivore
- Omnivore
