

Recording sheet for birds

Use this recording sheet to help accurately record what you've seen

When you observe an indicator species, simply fill in as many of the fields below as you can. Then when you get back to a computer, you can upload your data quickly, easily and accurately by following your worksheet.

Species	Location	Date	Time	How Many? (Check one)			What did you see? (Check one)				
				1	Less than 10	More than 10	Courting/Mating	Calling	Feeding	Bird on nest	Nest

Remember there are over 80 ClimateWatch indicator species so check the website to find out what to look for in your area. Don't forget to record your observations online! www.climatewatch.org.au
