

Your teacher will give your group a copy of the Liveability Factors Factsheet. Read through the factsheet and work in your groups to:

- categorise each factor as belonging to the physical, social or cultural category (or a combination of two or all of these categories).
- justify your decisions and add this information to the table below (NOTE: you should discuss your ideas as a group, however each student is responsible for writing their own answers in their own words).

Liveability factor	Physical, social or cultural (or a combination of these)	Justify your decision
 <p>Jobs</p>		
 <p>Great Places</p>		
 <p>Housing</p>		
 <p>Transport</p>		

Liveability factor	Physical, social or cultural (or a combination of these)	Justify your decision
 <p>Buildings</p>		
 <p>Ecological and Marine Health</p>		
 <p>Better Services</p>		
 <p>Working Together</p>		
 <p>Culture and History</p>		

Once complete, work as a group to choose three of these liveability factors that you believe might be most important to young people and explain why they might be important, recording your answers below. Again, each student is responsible for recording their own answers in their own words.

1.

2.

3.
