

Learning intention:

I will understand the connection between the choices we make about recycling and waste and the health of the planet.

I will be able to write an allegorical text that shares a message about a current issue in society.

Success criteria:

I can identify one environmental impact of landfill.

I can describe ways to minimise waste.

I can describe how MRF and recycling facilities reduce waste going to landfill.

I can identify the key features of an allegory.

I can name key themes or messages of an allegorical story.

I can plan and write an allegorical narrative with a sustainability theme.
