

Endangered Species Summary Table

While watching the video [5 Critically Endangered Australian Animals You Need To Know About](#), record information you find in the table below:

Species Name	Where is it found?	What caused it to become endangered?	How can people help?
Western Swamp Tortoise	Perth region, WA	Development for agriculture, fires and drought	Examples: Save water/water conservation.
Corroboree Frog	Kosciuszko National Park, NSW	Four wheel driving, development of ski resorts, drought, feral animals, infectious disease	Don't over develop - be aware of habitats. Limit 4 wheel driving. Trap/kill feral animals. Look after your pets.
Northern Hairy Nosed Wombat	Two Southern locations in QLD - Epping Forest National Park & St George National Park	Development for agriculture	Share your knowledge of endangered animals. Get people excited about the issues. Donate to conservation groups.
Gilbert's Potaroo	Two Peoples Bay, WA	Cats, foxes, disease, slow reproductive rates.	Keep researching.
