

Protecting The Planet

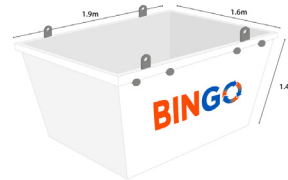

Have you heard about Bingo Industries?

Well, you should have – they are worth hearing about!

Bingo Industries help people and companies by removing their waste for them.

Bingo can take away:

- Contaminated soil.
- Liquid waste.
- Waste from business.

They can also provide people with skip bins to use at home.

PUSHING FOR A WASTE-FREE AUSTRALIA

Bingo stops waste from ending up in landfill by collecting it and then sorting it to be reused, recycled or sending it to other facilities. They have a vision of creating a waste-free nation.

Bingo have 17 locations in New South Wales and Victoria, operate 254 trucks and provide jobs for 797 people. They have already stopped a large amount of waste being taken to landfill from these areas.

But Bingo do not only care about recycling. The company has strong ethical values. They focus on making sure that there is no harm to any people or the environment. They contribute to important causes, raising over \$700,000 for charities such as New South Wales Cancer Council and McGrath Foundation. They have also developed waste education programs for students in schools. These programs reached 1,141 children between July 2017 and June 2018.
