

Did you know we only have 52 teeth in our life time?

You Must Protect Your Teeth!

Remember to brush your teeth twice a day!

Flossing is very important as it gets rid of the food your brush may have missed!

Our teeth are super important for us. They help us to chew and break down the food we eat. They also help us to talk and sing!

Remember: Pack a water bottle whenever you go out. Avoid sugary drinks!

Go Visit Your Dentist!

Your dentist will clean and polish your teeth and check for any issues you may have.
