

How to Guide for Reverse Image Searching

If you have a picture and you aren't sure where it came from, or you would like to find out more information about it, you can do a reverse image search through your internet browser. Follow these steps to get sleuthing in no time!

Upload a picture

1. On your computer, open a web browser, like Chrome or Safari.
2. Go to Google Images.
(<https://www.google.com/imghp?hl=EN>)
3. Click Search by image.
4. Click Upload an image and then Choose file or Browse.
5. Select a picture from your computer.
6. Click Open or Choose.

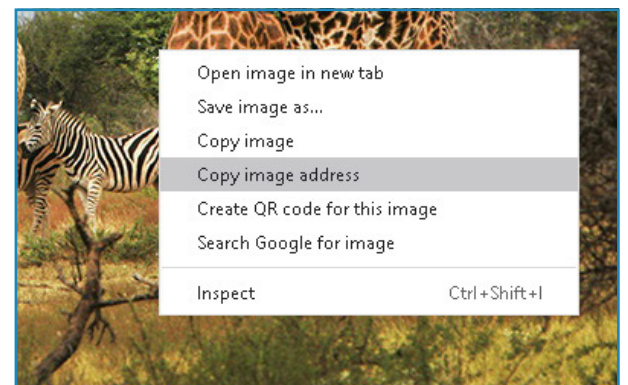

Drag and drop a picture

Important: To drag and drop pictures, you'll need to use Chrome or Firefox.

1. On your computer, open a browser, like Chrome or Firefox.
2. Go to Google Images.
3. On your computer, find the file with the picture you want to search with.
4. Click the picture.
5. Hold down the mouse, drag the picture, and then drop it into the search box.

Search with a URL

1. On your computer, open a web browser, like Chrome or Safari.
2. Go to the website with the picture you want to use.
3. To copy the URL, right-click on the picture.
4. Click Copy image address.
5. Go to Google Images.
6. Click Search by image.
7. Click Paste image URL.
8. In the text box, paste the URL.
9. Click Search by image.

Search with a picture from a website

1. On your computer, open the Chrome browser.
2. Go to the website with the picture you want to use.
3. Right-click the picture.
4. Click Search Google for image. You'll see your results in a new tab.
